Allowable Subject Matter

1. Claims 1-2 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a battery remaining amount warning. Each independent claim identifies the uniquely distinct features "a storage device which stores a **current value** in each of a plurality of operating modes of the electronic device, a measuring device which measures a **voltage** variation of the battery when a first one of the operating modes of the electronic device is changed for a second one of the operating modes, calculates a DC **resistance** value of the battery from the voltage variation measured and a difference between the current value in the first operating mode stored in a storage device and the current value in the second operating mode stored in the storage device, and warning device gives a warning when the resistance value calculated is greater than a predetermined warning level" in combination with the manner claimed. The closest prior art, Johnson et al. [US 523257] and Koyama et al. [US 6,744,698] disclose similarly inventions, however either singularly or in combination fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son M Tang whose telephone number is (571)272-2962. The examiner can normally be reached on 4/9 First Friday off.
